UPDATE!

CAC Stickers Do Not Add Value!

Then why do CAC stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the "little green" sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

CAC has evaluated over ~~450,000~~ 550,000 coins with a market value over ~~$2.0~~ $2.4 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC stickered coins bring a premium - they are placed on only quality coins.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over ~~$300,000,000~~ $340,000,000 worth of coins.

So the CAC sticker does not add value - It is just an easy way to identify coins that are solid for the grade. And it gives you confidence in the value of a coin.

Morgan Dollars Performing Well Territorial Gold Succeeds In Schaumburg

Dealers are busy tallying up and just generally absorbing the CSNS event which took place last week. Heritage made headlines with their $46.76 million sale. Over 620 5-figure lots sold in this giant auction with 60 selling for over $100K. The top six lots in this auction belonged to Territorials, which realized a total of $4 million. Several US examples crossed the block for over six figures, too. For example, an 1854-O $20 Liberty graded PCGS AU55 sold for over $440K. Another $20 Liberty from 1862 and graded NGC PR65 Cameo, pulled in $381,875. Next, an 1893-S Morgan Dollar graded by NGC as Gem hammered for $329K.

NGC graded Morgan Dollars had great support in Schaumburg. An 1883-S graded MS65 by NGC and having a pop 10 and 3 finer sold for $32,900. Three NGC graded 1879-CCs in MS64, MS65 and MS66, the latter being a pop 2 and none finer, brought in a combined total of $92,240 at the CSNS sale. An 1893-S graded AU55 by PCGS/CAC took home $45,100 through GreatCollections' on-line auction this past week. Higher sight-unseen Bids are being offered for GSA Morgan Dollars in original government issued holders with box and certificates. A couple dealers are offering up to 10% more sight-seen for these CC cartwheels if they are problem free and blast white. A trio of graded and authenticated Gem 1889-CC Dollars still in their original GSA holders fell to the gavel in Chicago. All three Dollars each realized $1,295, two sported the NGC wraparound grade label sticker while the third was in the new giant PCGS slab which entombs the entire original government holder in plastic. Generic Morgan Dollars are needed at higher sight-unseen Bids of $250 in MS66 for PCGS and $565 in MS67 for NGC as demand continues to heat up. At least one dealer has once again raised sight-unseen Bid for 1928 Peace Dollars in both PCGS and NGC plastic to Bids of $775 and $1,050 in grades MS63 and MS64.

A pop 32 with 27 finer, 1916-D key date Merc graded MS65FB by PCGS and CAC approved, saw the highest Bidder fork out $41,125 at the Schaumburg Platinum Night sale. Also making some noise was a pop 29 and 3 finer, 1925-D PCGS MS65FB picking up $10,575. A nicely toned ANACS slabbed, 1919-D Walker graded MS63 traded hands for $4,700 at the recent CSNS sale. Other noteworthy Walkers that did well include: A 1919-D graded MS64+/CAC selling for $38,188. Also, a pop 43 and 5 finer, 1917-D Reverse graded PCGS MS65 sold for $11,750 and finally a pop 29 and 2 finer, 1917-S Obverse graded MS65 by NGC sold for $14,100. Registry Set rarity 1913-S Type 2 Buffalo graded MS67 by PCGS, having a pop 4 and none finer, went up for grabs at the Heritage Platinum Night sale and brought home $28,200. Heritage saw three 1937-D 3-Legged Buffaloes all in PCGS holders graded MS65, MS65/CAC and MS65+/CAC walk away for $28,200, $28,200 and $35,250. Commemoratives are very active as dealers place multiple higher sight-unseen Bids for several issues within the category. What has typically been a sleepy area of the coin market is roaring to life with frenzied activity by both dealer Bid advances and auction prices realized that are moving prices in both directions. Bids are mostly up with 66 advancing issues and 41 declining. An NGC MS67 Lafayette Dollar realized $36,720 at auction against a sight-unseen Bid of $32,000. This very scarce coin has an NGC census of nine pieces in MS67 and none have been graded MS67 by PCGS.

Gold has taken a dip well below the psychologically important $1,300 per ounce mark to close at $1,283. This decline has translated into a load of minus signs landing in the Type Gold Bid columns, leaving all denominations suffering. Silver is also below its comfortable $20 per ounce level, as it has been for weeks now, closing today at $18.98. Platinum seems to have recovered from its anemic performance last week, working its way up to $1,428 and Palladium is climbing, now up to over $814.

Fewer dealers are focusing on upgrade/crossover practices since the advent of CAC approval stickers and plus (+) grading, but this activity has not gone away completely. It has definitely slowed since many collectors have shifted their buying habits towards paying a premium for material that is at the top end of the assigned grade rather than buying a higher graded coin (for a discount) that just made it and is of average to the bottom-end of the numeric grade on the label. Set Registry participants remain part of the latter group for the most part, as they continue to compete for the top-pop plastic. See a few examples above that have been freshly encapsulated with a higher price realized last week in Schaumburg compared to their prior auction appearance.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

The frame that holds a masterpiece does not influence its value.

Likewise, a quality coin will always bring a premium in any holder, with or without a CAC sticker.

Then why do CAC stickered coins bring a premium?

CAC just makes it easier to identify quality coins that are solid for the grade. CAC has evaluated over 550,000 coins with a market value over $2.4 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That means you can have confidence in the value of a coin.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over $340,000,000 worth of coins. Look for the CAC sticker - you'll find a quality coin in its holder.

CAC®

"Because Confidence is Priceless"

The CAC sticker helps identify a quality coin.

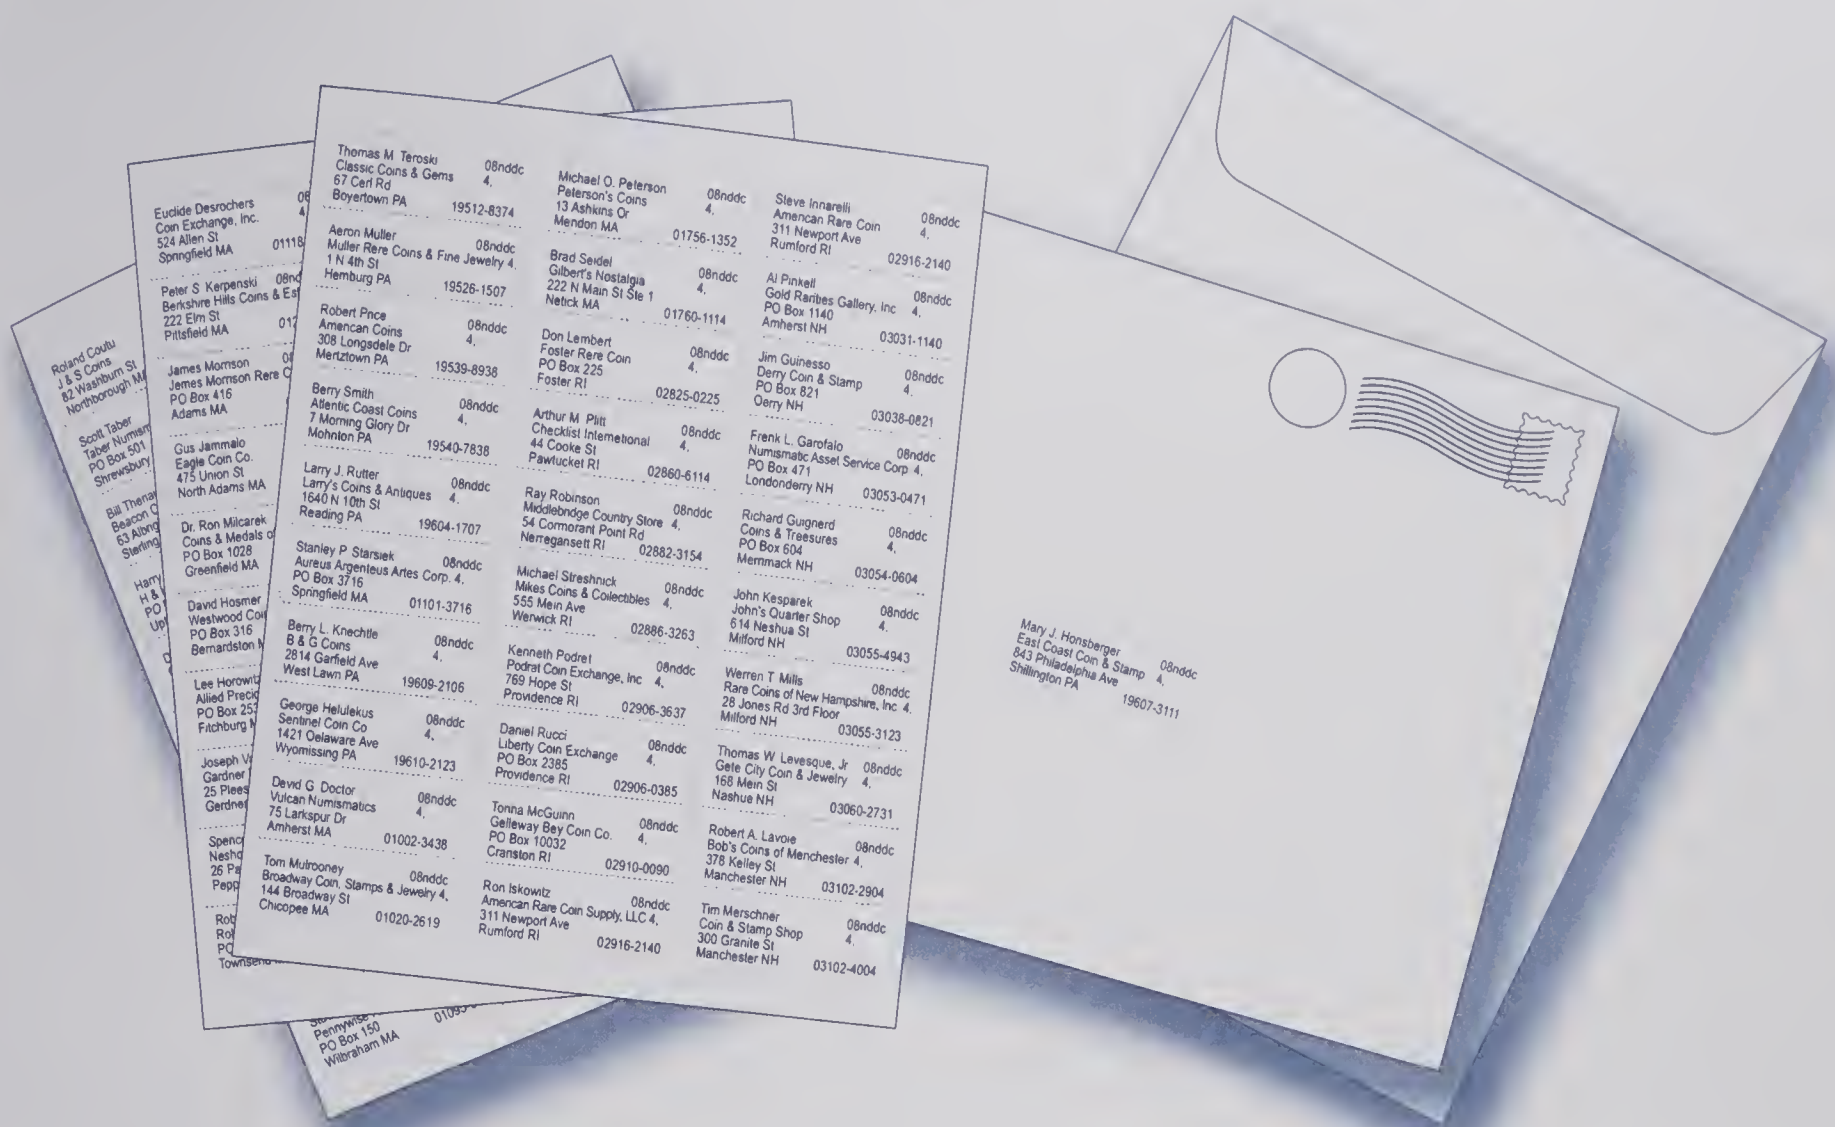
Need to Mail?



Need to contact America's leading numismatic dealers?

Make your advertising and postage dollars count with America's best dealer listing. The company name and numismatist sections of the **2014 Numismatic Dealer Directory**™ are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,000+ current names and addresses. And current is a promise taken seriously — the database is updated daily. All for only $385 — well below the mailing industry standard of $95/thousand.

Need just one state or region? Need a trial sample?
Pay only 8¢ per address and $25 set-up.

YES, I want to order mailing labels averaging 5,000+ names and addresses from the 2014 Numismatic Dealer Directory.

I understand that my $385 fee entitles me to only one usage of these addresses. _____

Every Numismatic Library needs a complete set of the

COIN DEALER newsletter family of publications

Order Online www.greysheet.com

the Backsheet

Now that we have your attention, we really haven't started an additional newsletter — but your library should include **Back Issues** of our publications. Back issues are available two ways:

You can purchase small quantities to fill in missing issues, to obtain articles necessary for your research, or to follow your special interests. You may also combine your order for back issues of any of our publications to obtain the lowest price:

1-10 issues - $3.00 each • 11-25 issues - $2.50 each • 26 & over - $2.00 each

Or, you can purchase ***complete sets*** of back issues for really dramatic savings:

Peace Dollars Surge
Gold Commems Continue North, Silvers South

Declines dot the Bid columns giving back some prior advances. This is particularly true within the Silver Commemorative segment, and as we've pointed out in the past, these decreases are driven by low retail auction prices realized that force unsupported wholesale levels lower. Increased demand that we have been seeing for some weeks now within Gold Commems is resulting in plus signs for $2½ Pan Pacs in grades MS63 thru MS66. An NGC MS66 example sold at auction for $5,875 in the past week while sight-unseen Bid has just been advanced to $6,000. 1905 Lewis and Clark Dollars are also sought in MS66 and are now 10% higher than our last report at $11,000 Bid.

Like most things these days, doing business is more complex, and keeping tabs on Bid and Ask prices requires more attention. A good example of this is something we found taking place on the trading networks for Type Gold. On CCE there are Bids being hit for NGC MS62 and MS63 Type 1 Gold Dollars that are approximately 20% less than the current live action sight-unseen Bids of $440 and $500 posted for these same respective issues on CoinPlex. By not monitoring both dealer-to-dealer trading networks, this particular seller has left $165 on the table. The overall Mint State Type category is stable with the majority of recordable activity taking place in Type Gold where Bid levels are for the most part mixed. Quite a few 4-digit Type coins in better grades sold sight-unseen through the exchange which is not the norm as generics are the prime product usually traded. A few examples include: A Trade Dollar duo in PCGS\NGC MS65 for $12,600; PCGS PR65 Morgan for $4,400; NGC MS64 Reeded Edge Half Dollar for $4,300; No Motto Seated Half in PCGS MS65+ for $5,500 and a pair of No Motto Proof Seated Dollars in PCGS\NGC PR64 for $10,600. A group of five Proof Barber Halves in PR64-PR67 traded for a total of $14,680.

Peace Dollars are running wild this week for both grading services as sight-unseen Bids are up as much as 21% in MS61 through MS66 as dealers look to buy better material. Very Choice examples of the 1923-S are up a stunning 62% from this time last year, now Bid $340. Peace Dollars dated 1922-S in the same grade are 45% higher since May 10, 2013. Common date Prooflike Morgan Dollars are also needed at higher sight-unseen Bids of $95, $125 and $205 in grades MS63PL, MS64PL and MS64PL. GreatCollections saw a rare key date 1894 Morgan graded MS65 by PCGS having a pop of 21 and 5 finer change hands for a whopping $31,075 through their on-line auction this week. At least one dealer is after 1894-O Morgan Dollars in MS62 and MS63 and will pay a higher sight-unseen Bid of $1,500 and $3,500 for PCGS and $1,450 and $3,350 for NGC. Legend-Morphy is looking to auction off a beauty of a cartwheel—a 1900 graded MS67 by PCGS with CAC approval in their upcoming sale.

A beautiful 1927-S Walker graded MS65+ by PCGS brought home $14,850 through a recent GreatCollections on-line auction. Two key date PCGS graded Walkers will likely change hands at the Vegas auction, a 1921 MS65+\CAC and a 1919-D graded MS64+\CAC. A gorgeous golden toned pop 27 with none finer, 1937 Mercury Dime graded PR68 by PCGS is also looking to make some noise at the upcoming Vegas auction. 1913 Type 1 Buffalo Nickels graded PR66 are slightly lower due to lack of support combined with poor auction outings. A Registry Set must-have 1926-S Buffalo graded MS66 by NGC and having a census of 3 with none finer will bring out serious Bidders for this rarity May 22. Also up for grabs in Sin City is a scarce 1916/16 Buff graded MS64 by PCGS\CAC.

As part of the PCGS members only show in Las Vegas, May 21-24, Legend-Morphy will host an auction on the 22nd. This sale is dubbed the Regency Auction VII, and is the firm's largest and most diverse auction to date. We have listed several of the many highlights herein. The Goldberg's will hold their Pre-Long Beach sale June 1-4 in Los Angeles, which of course means that the Long Beach Expo is next on the horizon, coming June 5-7.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest national reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Verify Your Stickered Coin!

You can use the online CAC Verification Search feature to check the CAC database for ALL coins that CAC has stickered .

Data for each stickered-coin is compiled in CAC's secure database. You can use CAC's FREE online tools to easily verify your stickered coin. What's more, you have access to CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, FREE, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's a convenient way to access a gold mine of CAC coin data, the FREE CAC POP report.

Strong Demand Targets Silver Dollars
Multiple Auction Venues On Tap

Dealers are wrapping things up from the many local and regional shows held across the country this past weekend in places like: Richmond, Virginia; Denver, Colorado; and Arlington, Texas as preparations begin for upcoming auctions from the Goldbergs, Bonhams, Heritage and of course, the Long Beach Expo. Auction prices realized have been quite robust so far this year, with the major companies totaling close to $238 million to date. This number will go up rapidly of course as Legend-Morphy, Goldberg, Bonhams and Heritage complete their soon to come sales. Early American Coppers, or EAC, brought in over $210K on May 3 in a private auction held in Colorado Springs, CO. A few highlights from this sale, all Draped Busts, include an 1806 Small 6 With Stems Half Cent, graded G5+ with the catalog stating, "Close to a G6 overall." Another example was a 1796 Large Cent, graded VG7 and a third highlight was an 1803 Large Cent graded, "Close to VF20 Details."

Gem generic Morgan Dollars are needed at higher sight-unseen Bids of $142 for PCGS and $141 for NGC as well as $585 for NGC MS67 examples. CAC and + graded Morgan and Peace Dollars are seeing strong demand as well, as higher sight-unseen Bids are being offered across-the-board. A gorgeously toned Morgan, 1878 7TF Rev 79 graded MS66 by PCGS with CAC approval and a pop of 4 with none finer will be looking to go home with someone new after the Pre-Long Beach sale. Also looking to turn heads at the sale is a pop 15 and 3 finer, 1883-S Morgan graded MS65 by PCGS. Having a CAC pop 1 with none finer, a 1921-D Merc graded MS67 by PCGS\CAC will bring out the competitive Bidders to capture this fine rarity at the Pre-Long Beach sale in June. Another important Winged Liberty Dime offered through the Goldberg sale is a 1926-D Merc graded MS66FB by PCGS with a pop of 9 and 2 finer and comes with the CAC approved sticker attached. A recent David Lawrence on-line auction saw a beautiful golden toned, 1937-D 3-Legged Buffalo graded MS64 by PCGS\CAC brought home for $9,000. Gold Commems are still drawing a lot of attention from market makers. Better issues are moving higher for PCGS and NGC material, but it's the plus signs on Supplement Page G that will demonstrate the demand for higher quality material. Last week, Bids for PCGS and NGC slabs in grades MS62-MS67 were advanced for $2½ Pan Pacs; now the issue is zooming higher for CAC, PCGS+ and NGC+ coins.

Continuing with the theme we touched on last week pointing out some substantial price differences in sight-unseen Bids posted on the various wholesale trading networks, this week a dealer offered a 1913 Barber Half in PCGS MS66 for $3,400 and described as toned on open broadcast. The coin quickly sold, likely because a buyer is waving a $3,750 sight-unseen Bid around for any PCGS MS66 Barber Half. Another situation involves a large dealer offering an 1891 Liberty Seated Quarter in NGC PR67 for sale at $3,500 while the same dealer is Bidding $3,600 sight-unseen on the trading network for any with Motto Seated Quarter slabbed PR67 by NGC.

Just before the Long Beach show rolls around, the traditional Ira and Larry Goldberg Pre-Long Beach auction will take place. June 1-4 are slated for their sale in Los Angeles. A few of the many highlights are listed at left. Included in this auction are two recently discovered 1922 High Relief Matte Proof Peace Dollars. One of these is a PR67, and the other is a PR64. The former is the finest known example, and the latter is one of just three. This Goldberg auction will ramp up excitement for the Long Beach Expo which runs June 5-7. Several visitors will be present to fill the show with opportunities. In addition to the "Meet The Expert" with David Hall, Baseball Hall of Fame coin designer Cassie McFarland will be present at the show. McFarland won a nationwide competition with her design of a baseball glove as a common obverse for the Gold, Silver and Clad HOF issues. Bonhams will be holding an auction in Los Angeles, Monday, June 2 featuring coins and medals from the Kernochan Family Collection. We have included a list of several highlights herein.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

UPDATE!

CAC Stickers Do Not Add Value!

Then why do CAC stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the "little green" sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

CAC has evaluated over ~~450,000~~ $50,000 coins with a market value over ~~$2.0~~ $2.4 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC stickered coins bring a premium - they are placed on only quality coins.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over ~~$300,000,000~~ $340,000,000 worth of coins.

So the CAC sticker does not add value - It is just an easy way to identify coins that are solid for the grade. And it gives you confidence in the value of a coin.

Market Columns Offer Wealth Of Info Dealers Optimistic For Upcoming Auctions

With so many auctions coming up in early June, including those from Bonhams, the Goldbergs, and Heritage, and the Long Beach Expo as well, activity on the sight-unseen electronic dealer-to-dealer networks is not surprisingly somewhat slow—just over $110K changed hands in the last week. One sight-unseen trade on CCE did stand out: a $5,200 Bid was hit for an 1873-4 Seated Liberty Seated Quarter, With Arrows in PCGS PR65. This general lack of volume in sales is certainly not an indication that the rare coin market is slow. It isn't. Dealers have expressed optimism and excitement for the upcoming action, and recent auction totals from the big players are very strong, coming in at just under $250 million for the year so far. For example, the following totals (in millions) have been achieved: Heritage: $179; Stack's Bowers: $26.8; David Lawrence: $3.5; GreatCollections: $11; Ira & Larry Goldberg: $26.6; and Legend-Morphy at over $2.6, not including their auction this week in Las Vegas as part of the PCGS Members Only show.

Silver Commemoratives are in a bit of a lull this week with only a few price changes recorded. Lafayette Dollars in NGC MS64 holders have dropped $210 to $2,050 as a dealer lowered his Asking price. The always popular Hawaiian Silver Commems have increased slightly in MS65 to $3,510 Bid. Visible sight-unseen buyers are also present, offering Bid for every other grade listed save MS63 in which buyers are paying just shy of current levels. A cursory glance at the Market columns reveals these issues routinely sell through retail auction venues for not much more than the wholesale buys published herein. The last PCGS and NGC example to sell in Gem each realized $3,525 or just $25 over sight-unseen Bid. Gold Commems are rock solid with multiple buyers present, offering to pay Bid for just about every date and grade from the 11-piece set with the $50 slugs also having active buyers for many grades.

Common date Morgan Dollars in MS65 are once again needed at higher sight-unseen Bids of $142. Carson City Minted Morgan Dollars remain popular with collectors and are readily available on the bourse floor and online. Take a look at the Market columns for common CC Dollars in MS61-MS64 and you will notice many sell at public auction for less than sight-unseen Bid, sometimes even selling for less than dealers are paying for slabs grading 1-2 points lower. This is just another example of instant liquidity in the wholesale marketplace for material purchased at full retail, resulting in the consigners being the ultimate losers by leaving time and money on the table. Bids for 1896-S Morgans are 11% higher in MS61 with the top sight-unseen Bidder willing to exchange $2,000 for any specimen encapsulated by PCGS or NGC. The last example of this issue (with a combined pop of 200) to sell at auction realized $1,998 back in August of 2012. A gorgeous, toned pop 27 and 17 finer, 1899 Morgan graded PR66 by NGC took home $7,000 in a recent David Lawrence auction. Also selling through the same auction was a pop 62 with none finer, 1925-S Peace Dollar graded MS65 by NGC picking up $9,500. This and many more auction prices realized can be seen in this week's Market columns. Heritage is looking to part ways with a beautifully rainbow toned pop 110 with 2 finer, 1881-S Morgan graded MS68 by PCGS in their upcoming Long Beach auction. Also likely to turn heads is a nicely struck 1923 Peace Dollar graded PCGS MS67\CAC having a CAC pop of 18 with none finer. Peace Dollars are mostly steady with eager buyers available for the majority of issues in most grades. Only a couple of dates are declining moderately in MS63. A peek at the blanks in the MS66-MS67 Market columns identifies which issues rarely come up for sale or may not even exist.

GreatCollections saw a beautiful pop 236 with 101 finer, 1933-S Walker graded MS65 by PCGS change hands for $3,300, this past week. With a CAC pop of 3, a golden toned 1937 Walker with sticker, and graded MS68 by PCGS will hopefully be leaving with someone new following the Heritage sale. A first year key date 1916-S Walker graded MS66+ by NGC with a pop 13 with 1 finer will look to find a new home as well. Two key date Mercs, 1921 and 1921-D both graded MS65FB by PCGS will be up for grabs in Long Beach. Having a pop 9 with none finer, an orange toned 1938-D Buff graded MS68 by PCGS will look to bring out some competitive Bidders at the Long Beach sale. Also looking to make some noise is a key date 1926-S Buff graded MS64+ by PCGS having a pop of 4 with the Plus designation.

On May 21, eBay asked its users to change their passwords. This request was the result of a cyber attack on the auction giant's database containing encrypted passwords and other non-financial data. According to eBay, no evidence has been found showing unauthorized activity of its users or access to credit card information. Precious metals are making a move north. Gold is up to $1,295 per ounce, closing in on the recent $1,300 benchmark. Silver made a positive move to land on $19.49. Platinum is at $1,493 and Palladium stands at $836.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest non-[illegible] reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets.
Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks and Bids, coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy**: During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "**w**" – Lowest asking price during the week prior to publication (*w*eek old); "**m**" – Lowest asking price during the previous three weeks (*m*onth old); "**t**" – *T*rade during the most recent month; **lm** – Lowest asking price appearing *l*ast *m*onth; "**lt**" *T*rade appearing *l*ast month; "**ot**" *T*rade older than 2 months; a blank, for all Market prices older than two months; "**a**" for auction transactions; "**oa**" – auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

The frame that holds a masterpiece does not influence its value.

Likewise, a quality coin will always bring a premium in any holder, with or without a CAC sticker.

Then why do CAC stickered coins bring a premium?

CAC just makes it easier to identify quality coins that are solid for the grade. CAC has evaluated over 550,000 coins with a market value over $2.4 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That means you can have confidence in the value of a coin.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over $340,000,000 worth of coins. Look for the CAC sticker - you'll find a quality coin in its holder.

CAC®

"Because Confidence is Priceless"

The CAC sticker helps identify a quality coin.

Looking Forward To Long Beach Precious Metals Dip

In our last report, Gold was fairly strong at $1,295 an ounce. Since then, the yellow metal has fallen off a cliff and landed on $1,256. Gold hasn't been this low since early February. Gold experienced its largest single day drop of the year this week, May 27, losing $26 an ounce. Silver has weakened as well, dropping from $19.49 last week to $19 today. Platinum's Spot came in at $1,460 which led to the gap between Platinum and Gold expanding to $205, which is the highest its been since the beginning of this year. Palladium closed at $834 per ounce. While such movements in precious metals may not be the best scenario for the Long Beach Expo, there is so much going on this time around, collectors and dealers are sure to be excited and at least cautiously optimistic about the event. For example, the US Mint will be in attendance selling their wares. Also, David Hall will host a "Meet the Expert" session, which always attracts long lines. The Expo will also include the presence of 20 dealers from mainland China to share their knowledge and experience. Cassie McFarland, the woman who designed the immensely popular Baseball Hall of Fame Commems, will also be at the show. Another attraction is that the "Pawn Stars" casting team will be there to evaluate collectors' possessions for possible inclusion on their show. Finally, Heritage will hold an auction at the Long Beach Expo featuring a remarkable Premier Session which consists of especially high-quality material. We have listed some of the many highlights herein. Trading on the electronic, dealer-to-dealer exchange networks approached $200K over the past week, which is fairly active considering the upcoming action.

Morgan and Peace Dollars are seeing a lot of activity in the form of plus signs as demand is in place for a variety of dates in numerous grades. Leading the way is an 1889-O graded MS65 by NGC up 24% to a higher sight-unseen Bid of $4,000. PR67 Morgan Dollars in PCGS slabs are being targeted at a higher sight-unseen Bid of $8,000. A key date 1896-S graded MS65 by PCGS saw the winning Bidder hand over $15,000 to acquire this Gem through a recent David Lawrence auction. A registry rarity with a pop of 31 and 2 finer, an 1889-CC Morgan Dollar graded MS64 by PCGS will look to make some noise through Heritage's Long Beach auction in June. Heritage is also hoping to see a beautiful 1928-S Peace Dollar graded MS65 by PCGS with a pop of 55 and 1 finer go home with a happy collector. A registry set quality 1935-D Walker graded MS66 by PCGS changed hands for $3,800 through a recent online auction $14,100 is what was forked over for a pop 33 with 1 finer, 1936 Walker graded PR67 by PCGS at the past Legend-Morphy sale in Las Vegas. Heritage is looking to part ways with a gorgeously struck pop 34 with 2 finer, 1918-S Walker graded MS65 by PCGS in their upcoming auction in Long Beach.

Legend-Morphy saw a beautifully toned key date 1918-S Buffalo graded MS65\CAC by PCGS surpass the estimated value of $17,500 and took home a whopping $19,975 in their recent auction in Vegas. Also doing well at the same auction was a CAC pop 2, 1921-S Buff graded MS66\CAC by PCGS racking up $28,200. Goldberg's pre-Long Beach sale is hoping to see a Bidding war for a beautifully struck 1916 DDO Buffalo graded AU55\CAC by PCGS as this has a CAC pop of 5 with 5 finer. Also looking to turn heads in the same auction is a golden toned pop 15 and 2 finer with the CAC sticker, 1926-S Buffalo graded MS64+ by PCGS\CAC.

A registry must-have 1918-D Merc with a pop 3 and none finer graded MS66FB by PCGS will look to bring out the competitive Bidders to Long Beach to acquire this beauty. Also heading to Long Beach are key dates 1921 and 1921-D Mercs both graded MS65FB by PCGS.

A portion of the Saddle Ridge hoard, discovered and dug up by a couple on their Sierra Nevada property, is now on sale through Amazon. There are nearly 600 listings, and each has a fixed price, the highest being $2.75 million for a group of 14 $20 Liberty's—including the can in which they were found. The next three listings are 1890-S $20 Liberty's graded PCGS MS64+ for $17,500 each.

Percolating below the surface is what seems to be even more demand for Type coins of all stripes. The following Proof Types have been plussed up this week. Liberty Seated Halves w/Motto in PCGS PR65, Morgan Dollars in PCGS PR67, Liberty Seated Half Dimes in NGC PR65, Barber Halves in NGC PR65 and Trade Dollars in NGC PR64. In a GreatCollections internet auction this week an 1803 Draped Bust Half Dime Large 8 NGC MS61 sold for $12,455 which is more than twice sight-unseen Bid. Another 1803 Draped Bust Half Dime Large 8, this one an NGC MS63 brought $17,070 in the same sale. In the Legend Morphy Sale an 1853 Type 1 Gold Dollar in a PCGS MS67 holder hammered for $22,325 against a sight-unseen Type Bid of $13,500.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Excitement Grows In Long Beach Generic Morgans Mixed

Many dealers are now on the west coast participating in the Long Beach Expo, which features multiple extra features this time around. For example, the US Mint has a booth at the show, selling the popular Baseball Hall of Fame Commemorative Half Dollar. Also, Cassie McFarland, the designer of the above-mentioned coin, is making an appearance each day at the show along with former US Mint Chief Engraver, John Mercanti. In addition, 20 Chinese dealers are visiting the expo from the Far East to share in the experience at the show. Precious metals remain a bit on the weak side, with Gold closing at $1,253 per ounce, Silver coming in at just over $19, Platinum landing on $1,445, and Palladium closing at $839. Sight-unseen trades over the dealer-to-dealer electronic networks are about what one would expect during a major show, at just over $100K in the last week.

Heritage, the official auctioneer of the Long Beach Expo, is currently holding their sale at the convention center. Bonhams and the Goldbergs have both completed their Pre-Long Beach auctions with strong results. Bonhams scored over $1.7 million on June 2 in Los Angeles with a top lot of $222,300 for a 1907 High Relief $20 Saint-Gaudens graded PR67 by NGC. Most of the material in this sale consisted of Gold Type, primarily Eagles, both Liberty (39) and Indian (47) issues. Among the $10 Indians, 41 are 1910-Ds and all are graded PCGS MS62-MS63. Nearly half (19) are graded MS63 and range in price realized from a low of $936 to a high of $1,287. The 22 MS62 examples sold for a high of $986 to a low of $819. Interestingly, the lone PCGS Plus graded issue in the MS62 bunch realized $878. The Goldbergs totaled nearly 13 million, June 1-4, also in Los Angeles, and we have listed several of the many US highlights herein.

Classic Silver Commemoratives are not completely out of the woods yet as declines are still occurring, albeit they are fewer and less severe than in the past. Among the 9 lower issues, Gem Sesquicentennials in PCGS plastic are experiencing the largest drop on a percentage basis after selling for a discount at public auction. A few dealers from the largest organizations down to the mom and pop shops are still struggling with the many dealer-to-dealer trading networks. This week, an NGC MS66 Spanish Trail was sold to a sight-unseen buyer on one of the networks for $1,240 while dealers on another network are paying $1,250 sight-unseen for MS65 examples, one grade point lower. At least one market-maker is seeing potential value in acquiring ICG and ANACS encapsulated 1951 Washington-Carvers and has raised Bid accordingly for MS63-MS64 examples.

Common date Morgan Dollars remain in serious demand with Bids increasing once again for Gem examples. Orders for quantities are offering $142 sight-unseen for any date in MS65, regardless of what the coin looks like. Very Choice examples have corrected a bit to a Bid of $62, though multiple transactions continue to be consummated. Jump Bids are now in place for 1882-S cartwheels designated as Gem DMPLs, as the high buyer has increased the last offer by 25% to $1,250 Bid. PCGS has a graded population of 34 while NGC has seen 71, each service has slabbed eight examples that are finer (MS66). The last couple to sell through retail public auction brought $4,406 and $1,880, the latter being an NGC and the former in a PCGS slab. Peace Dollars are fairly tame in this report except for the higher sight-unseen Bids targeting the 1935-S in lower Mint State condition and authenticated by ANACS\ICG.

Other than Gold, Mint State Copper, Nickel and Silver Type are pretty healthy overall with active buyers present for the majority of issues. A division of one of the larger auction firms is attempting to sell an 1876-S Trade Dollar in NGC MS63 for $1,500 while a different department within the same company is offering to buy any Choice Trade Dollar in NGC plastic for $1,550 sight-unseen. Unfortunately, the same giant coin dealership is selling an NGC Proof-67 1891 Liberty Seated Quarter for $3,500 all the while offering $3,600 for any With Motto Seated Quarter in the same grade. This scenario is occurring more often, and could be quite profitable for those who take the time to find additional schisms such as these.

Coming up next is an auction by Heritage, June 23 in New York, featuring the Eugene H. Gardner Collection, Part 1. Then it's the Whitman Coin & Collectibles Baltimore Expo, now in their 42nd year, June 26-29, featuring an auction by Stack's Bowers.

UPDATE!

CAC Stickers Do Not Add Value!

Then why do CAC stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the "little green" sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

CAC has evaluated over ~~450,000~~ 550,000 coins with a market value over ~~$2.0~~ $2.4 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC stickered coins bring a premium - they are placed on only quality coins.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over ~~$300,000,000~~ $340,000,000 worth of coins.

So the CAC sticker does not add value - It is just an easy way to identify coins that are solid for the grade. And it gives you confidence in the value of a coin.

SoCal Hosts Successful Show Gold Makes Some Headway

The Long Beach Expo is now complete, and it's time to work on the books, inventories, etc. Fortunately, for many participants, the results from Southern California were fruitful as attendance was high and, generally speaking, business was good. Much was done in the way of attracting the public to the show, including the presence of the US Mint to sell their Modern wares, dealers from China who added a touch of East Asian flare to the show, Baseball Hall Of Fame Commemorative coin designer, Cassie McFarland, who was there signing autographs, former US Mint Chief Engraver, John Mercanti, and more. This well-promoted expo definitely paid dividends for many of those who participated. Heritage held a very successful auction at the show, totaling nearly $16.4 million, with more than 98% of the 6,690 lots selling. We have listed several highlights herein. Gold has made somewhat of a comeback, rising to a level not seen in three-weeks, to a Spot of $1,274. Silver is also up, with a Spot of $19.52. Platinum dropped to $1,441 per ounce, and Palladium fell to $820. In the past week, sight-unseen, dealer-to-dealer transactions over the electronic networks totaled in the low six figures.

At least one dealer is looking to pay higher sight-unseen Bids for 1896-S and 1904-S Morgans in grades MS61 through MS63 for both services. Another dealer is offering to pay as much as $1,700 or 26% more for 1879-CCs in MS64 for either service to a higher sight-unseen Bid of $8,200. A beautiful pop 2 with none finer, 1890 Morgan graded MS66 by PCGS changed hands for a whopping $18,800 through this past Heritage sale in Long Beach. Also through the same auction, a pop 22 and 14 finer Proof 1895 graded PR66 by NGC saw the winning Bidder fork over $82,250 for this rarity. $70 is the amount left on the table at the recent Heritage sale for a 1928 Peace Dollar graded MS63/CAC by PCGS which sold for $705 as there is a visible buyer paying $775. Heritage will look to auction off a beautifully toned CAC pop of 5 with none finer, 1899 Morgan graded PR68/CAC by PCGS in their upcoming auction in New York.

Three Proof Buffaloes, all graded PR67/CAC by PCGS from the Eugene H. Gardner Collection, will look to find new homes. The first one being a 1913 Type One, then a 1913 Type Two and last a 1916, these having a combined CAC pop of 44 with 8 finer. Having a CAC pop of 7 and none finer, a gorgeous, 1940-S Walker graded MS67/CAC by PCGS brought home $27,025 in a recent auction. Heritage saw two 1923-S Walkers graded MS65+/CAC by PCGS and MS65 by NGC sell for $18,810 and $9,990 in Long Beach. A nicely struck 1921-S Half with a CAC pop of 3 and 1 finer, graded MS65/CAC by PCGS will be up for grabs in New York on June 23.

NGC Lafayette Commems drop this week to even out with their PCGS counterparts at a Bid of $2,000 for Very Choice examples. The next grade up featured a nice white PCGS + variety, one of only eight certified, which easily grabbed more than twice sight-unseen Bid when it passed the auction block in Long Beach (see list for price). Gold Commems also have a bit of balancing between the two grading services as Sesquis in PCGS MS65 have a modest drop to even out with similarly graded NGC pieces at a Bid of $6,500.

Gold is seeing quite a jump with NGC graded MS64 $10 No Motto Liberties in Type shooting up nearly 40% to a healthy Bid of $25,000. Saints are on the rise in Very Choice and Gem with a nice bump of $20, probably reflecting the rise in Spot since Monday. A beautiful 1912 $20 graded NGC MS65 will be up for grabs at this month's Baltimore show. With only 56 certified examples and eight finer, this is sure to find a plethora of eager Bidders.

Coming up next is an auction by Heritage featuring the Eugene H. Gardner Collection, Part 1, to be held in New York, June 23. Dealers should have just enough time to digest the Long Beach Expo and prepare for the next big show. This, of course, is the Whitman Baltimore Expo, celebrating their 42nd year. The show takes place June 26-29, featuring an official auction by Stack's Bowers.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. individual buy and sell prices will vary among dealers are strictly the responsibility of the dealers and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

The frame that holds a masterpiece does not influence its value.

Likewise, a quality coin will always bring a premium in any holder, with or without a CAC sticker.

Then why do CAC stickered coins bring a premium?

CAC just makes it easier to identify quality coins that are solid for the grade. CAC has evaluated over 550,000 coins with a market value over $2.4 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That means you can have confidence in the value of a coin.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over $340,000,000 worth of coins. Look for the CAC sticker - you'll find a quality coin in its holder.

CAC®

"Because Confidence is Priceless"

The CAC sticker helps identify a quality coin.

Pogue Collection Excites Dealers Precious Metals Spike

Dealers have expressed considerable excitement and anticipation over the Pogue Family Collection, which will be sold through Stack's Bowers. Compiled over several decades, this amassment is reported to be the most valuable of federal American coins ever formed, and focuses on Copper, Silver and Gold from the early 1790s to the late 1830s. Many of the examples are considered the finest known. Stack's anticipates selling the collection over a period of years in several sessions. Dealers are also focused on the more immediate future with the Eugene H. Gardner Collection, Part 1 which will be handled by Heritage on June 23 in New York. We have listed several highlights herein.

Federal Reserve Chair Janet Yellen reported Wednesday through the FOMC that the Fed will reduce its current purchasing rate of assets in an attempt to stimulate economic growth. In addition, the current target range for the federal funds rate, which is the interest rate at which banks lend money, will remain the same—0 to 1/4 percent—for a considerable time. The monthly buying of bonds will be cut to $35 billion in July. Partly on this news, along with continued worsening of the situation in Iraq, Gold Spot shot up over $40 to $1,314 on Thursday. Silver also increased, settling on $20.60 per ounce. Platinum landed higher, closing at $1,475, and Palladium increased to $839.

At least one dealer is going after the 1893 Morgan in MS62 and MS63 for PCGS and will pay higher sight-unseen Bids of $775 and $950, and also needs NGC slabs in MS61, MS62 and MS63 at new sight-unseen Bids of $725, $775 and $950 respectively. Generic common date CAC Morgan Dollars in MS65 are being sought after at a higher sight-unseen Bid of $185 as this can be seen on page G of the Supplemental pages. PCGS and NGC Plus are needed for the better date 1903-S Morgan in grades MS64+, MS65+ and MS66+ as higher sight-unseen Bids are being offered for this rarity. Proof Morgan Dollars in PCGS holders graded PR67 are seeing higher sight-unseen Bids of $8,150. A beautiful purplish toned pop 10 with none finer, 1894 Morgan graded PR68 by NGC is up for grabs through a Heritage auction in New York.

A 1914 gorgeously struck Buff graded MS67/CAC by PCGS with a CAC pop of 27 and 3 finer will look to find a new home after the Stack's Bowers auction in Baltimore. Also up for grabs in Baltimore is a CAC pop of 27 with 21 finer, 1914-D Buff graded MS65, CAC by PCGS. Heritage will also look to make some noise in New York when they will look to sell a CAC pop of 7 and 1 finer 1916 Nickel graded PR67, CAC by PCGS. 1913-D Type 1 Buffaloes are needed as one dealer will pay a higher sight-unseen Bid of $235 for any graded MS65+ in NGC slabs.

Silver Commems are enduring some turbulence with CAC graded material. Lafayette Dollars in Gem took a bit of a hard landing after some discount selling in online auction. However, non-CAC/+ varieties are still standing tall with sight-unseen Bid unchanged and staying strong. Grant Halves without star take it up a notch in MS64 and MS65 as dealers push higher for green beans on the slab in lieu of the coin being a less than stellar variety. Remarkably, there are no minus signs to report with PCGS Mercury Dimes for this week's sight-unseen action. NGC graded material is nearly just as resilient with one small blemish for Gem 1941-S pieces. Proof CAC versions tell a different story as 1941 issues again make a change, but this time it's positive, marching higher by $5. The heat is really turned up on Full Banded varieties sporting the green bean, especially for most 20's and 30's as dealers fill inventories and maintain sight-unseen Bid. First year PCGS+ Proof Walkers jump up to a solid $2,800 Bid. While CAC Proof Halves are a little quiet this week, a fine PCGS example in PR66 is going to be up for grabs at auction as part of the Gardner Collection. This pop 580 coin, with 123 finer, is beautifully blended forest-green, amber, teal, and has lemon-gold hues. On the flipside, 1941 is proving to be a rather quirky date this week with PCGS Proof Halves in Choice dipping a bit.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest national reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Gardner Collection Part 1 Brings $19.6 Million
Gold Type Continues Rise

Many dealers are now in Maryland, doing business and participating in the Whitman Coin & Collectibles Baltimore Expo, now celebrating their 42nd year. Festivities officially began on June 26 and run through the 29th. Stack's Bowers is handling the auction. Current healthy precious metals could very well give a boost to the action at the expo. Gold is well above the $1,300 mark. Silver closed at $21. Platinum settled at $1,471 an ounce, and Palladium is holding strong at $836.

Lately, the rare coin market really is hot, especially when considering auction performance. On June 23 in New York, Heritage held Part 1 of the Eugene H. Gardner Collection, and pulled in a whopping $19.6 million. We have listed some of the many highlights herein. Stack's Bowers just achieved their largest weekly auction total of over $214,000 since March. Now that we're roughly half way through the year, it's a good time to take a look at the combined proceeds from several of the major auction companies, and their total is a remarkable $291,122,386 and counting. This has the potential of creating an atmosphere of optimism for the Baltimore Expo, and even the rare coin marketplace for the remainder of the year.

Several NGC Commems lose a bit of altitude as Cleveland Halves in the lower Mint State grades shed some weight. Higher grades also saw an inkling of reduction as two Oregon Trail examples decline in Gem, and Bridgeports got squeezed in MS66. Gold Commems remain sturdy with not a single coin wavering, likely due to the recent run-up in Spot. Two pairs of beautiful Pan-Pac Quarter Eagles, each with a PCGS and NGC example, will be offered in Orlando in the upcoming weeks. One pair is MS64 CAC (out of 58 adorned with the green bean) while the other is a Premium Gem MS66 duo that is sure to turn some heads. Gold is booming for Type and a multitude of $10 and $20 pieces are along for the ride uphill. Type 1 Gold Dollars, however, saw a little deflation and settled to a price of $265 for PCGS MS61 pieces, narrowing the gap with their NGC counterparts to $5. Mercury Dimes seem to be a category of extremes this week. At the highest end of the spectrum of grades, MS67 pieces make major gains for inaugural 1916 full-banded varieties. Near the end of the Series, non-FB 1945 Micro S examples also enjoy a nearly 13% boost.

At least one dealer is after five different key Morgan Dollars in MS67; all must be in PCGS slabs and will pay a higher sight-unseen Bid for 1894-S at $15,000; 1899-S at $9,000; 1901-O at $15,000; 1902-S at $15,000 and 1903-S at $21,000. Generic Morgan Dollars are needed in MS63 for both services as sight-unseen Bids are up to $48. $50 is what was left on the table for a 1923-D Peace Dollar graded MS64 by PCGS as it sold for $270 through a recent Great Collections online auction as there is a sight-unseen Bid of $320 being offered. This can be seen in this week's Market column. Key date 1921 Peace Dollars are being sought after in MS62 for NGC as sight-unseen Bid is up to $300. Two beautiful Morgan Dollars will be up for grabs at the Summer FUN show in Orlando: a CAC pop of 86 and 1 finer 1880-S graded MS68/CAC by PCGS, and a pop 6 with none finer 1886 graded MS68 by PCGS. David Lawrence saw a gorgeous golden toned 1925-S Buffalo graded MS64 by PCGS switch hands for $2,610 in their recent online auction. Heritage is hoping to see a Bidding war for a pop 22 with none finer 1921 Buffalo graded MS67 by PCGS at the FUN show in July.

The Summer Florida United Numismatists show is on the way. Running July 10-12, with dealer set-up on the 9th, the expo will be held at the Orange County Convention Center in Orlando, Florida. Heritage will have the auction duties. Afterwards is the Missouri Numismatic Society's 54th annual coin show being held July 17th through the 19th with an auction by Scotsman—The Midwest Summer Sale—on the 18th, all taking place at the St. Charles, MO Convention Center.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers are strictly the responsibility of the dealers and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy**: During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "**w**" – Lowest asking price during the week prior to publication (week old); "**m**" – Lowest asking price during the previous three weeks (*m*onth old); "**t**" – *T*rade during the most recent month; lm – Lowest asking price appearing *l*ast *m*onth "**lt**" *T*rade appearing *l*ast month; "**ot**" *T*rade older than 2 months; a blank, for all Market prices older than two months; "**a**" for auction transactions; "**oa**" – auction older than 1 month

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Success In Baltimore Summer Market Busy

Dealers are on a high from the success at the Baltimore Expo, held June 26-29. The auction by Stack's Bowers totaled nearly $5.7 million. Action was abundant as foot traffic exceeded expectations for a summer show, and many of those in attendance were local collectors. Precious metals were strong during the expo, and keep getting stronger. Currently, Gold is at a robust $1,331 per ounce, which hasn't been seen since March 20. Silver is very strong, approaching a four-month high at $21.25. Platinum, at $1,512 is maintaining its power, and Palladium has settled on $857, showing continuous growth for several weeks now. Sight-unseen trades over the electronic dealer-to-dealer networks are about what one would expect at this time—during auctions and shows. The total for the week is just over $90,000.

Gold Type remains fairly active as Spot remains above the $1,300 per ounce plateau for a second consecutive week. $10 Indians in grades MS61 through MS64 are realizing the largest percentage gains within the segment up 7% since our last report. A few of the major marketmakers are still looking for direction with many declines recorded in response to lower Asking prices and poor auction appearances. $10 Libs in NGC MS66 are taking the biggest hit after a 1901-S realized $3,820 in Baltimore this past week. A PCGS example in the same grade traded sight-unseen for $5,000 through CCE, about the same time late last week, with the high Bidder still in place. To date NGC has slabbed 368 $10 Libs with Motto as MS66 with 57 graded finer, while PCGS has encapsulated 277 with 19 more rated a grade higher. Monitoring the multiple certified coin trading networks is still a challenge for some of even the largest dealers with glaring discrepancies still present. $2½ Libs are one such example with dealers on one exchange selling these generic Quarter Eagles for $340 while the higher Bidders on another wholesale network are actively trying to buy the same coins for $370.

A variety of CC Dollars are being sought after in MS61, MS62 and MS63 for PCGS and NGC as one dealer is paying as much as 13.5% more sight-unseen to get these beauties. Sight-unseen Bids for ANACS and ICG slabbed 1883-CC examples are up to $180 and $185 in MS61 and MS62. 1887 Philly Morgan Dollars in ANACS slabs in MS62 are needed at a higher sight-unseen Bid of $65 which is a 71% increase. Carson City GSA Dollars in holders graded by NGC are being targeted at higher sight-unseen Bids in MS64 through MS66 with the leading go getter being the 1885-CC graded MS66, up $300 to a sight-unseen Bid of $3,300. A rustic looking 1895-S key Morgan graded MS65 by PCGS with a pop of 37 with 2 finer took home $19,975 in Baltimore through the Stack's Bowers auction. An MS66 is also being sought after for a sight-unseen Bid of $40,000 as long as it is in a PCGS holder.

Stack's Bowers saw three beautiful 1937-D 3-Legged Buffaloes graded MS64, MS63/CAC and MS63 all in NGC holders sell for a combined price of $12,400 at their recent Baltimore show. Competitive Bidding took place at a recent Great Collections on-line auction for a pop 6 with 18 finer 1918/17-D Buff graded MS63 by NGC with the winner forking over a whopping $39,050.

A busy week for Silver Commems continues with sight-unseen transactions recorded for nearly five dozen issues as their Bids were hit by eager sellers. Certain 1936 Silver Commems in MS65 and MS66 seem to be on a bumpy road as Albany, Bridgeport, Delaware and two Oregon Trail examples lose a little headway. Gold Commems remain unscathed. Proof Type Liberty Seated Quarters with Arrows have hit a bit of a rough patch declining nearly 18%. Quite a few better Proof Type pieces sold sight-unseen through the various trading networks this past week including: Seated and Barber Dimes in PR65-66 for $1,030-$1,300; With Motto Seated, Trade and Morgan Dollars in NGC PR63-64 for $2,310-$4,800 and NGC PR64-66 Walkers for $400-470. Mint State Half Dimes of the same variety, however, push their way up to an even sight-unseen Bid of $400 for Very Choice PCGS examples, matching NGC counterparts. It's good to be Gold as Eagles and Double Eagles, to a lesser extent, make gains as plus signs outweigh the minus signs this week. There is a somewhat inverse trend in the lower Uncirculated grades of MS61-MS63 as low and high denominations such as $2½ and $20 chart losses while the middle denominations of $5 and $10 tack on gains. Winged Liberties are strong with only a single minus sign across the entire series, and even the lone decrease is only a $1 step back. Money was definitely left on the table as one dealer sold off a nice 1941 Half graded PCGS MS65 for a mere $89, a whopping $45 below sight-unseen Bid.

With precious metals as well as Wall Street numbers higher, this positive economic news bodes well for the rare coin market, especially for upcoming shows and auctions. The next big gathering is the FUN show in Orlando, FL, July 10-12. Heritage will host an auction July 10-13. We have included several highlights from this sale herein. Then it's the Missouri Numismatic Society Convention taking place July 18 with an auction by Scotsman.

Silver Commems Still In Slump
Five-Figure Bids Target $50 Slugs

Dealers have flocked to Orlando, FL to attend the 8th annual Summer FUN show and auction by Heritage, beginning July 10 and running until the 12th. The search is on for high-end material, the crème de la crème which is always in demand in a bull market like this one. In fact, when it comes to auction prices realized, the half dozen major numismatic auction firms we follow have already brought in a total in excess of $300 million since the year's beginning, averaging over $11.6 million a week. Precious metal strength is often a good sign for a successful show, and Gold and Silver are doing their part this time around, with the yellow metal coming in at $1,339, well above last week's Spot. In fact, Gold hasn't been this high since late March. The white metal is at a very strong $21.46 an ounce. Platinum landed on $1,517 per ounce, and Palladium at $874. As usual during conventions, the dealer-to-dealer sight-unseen trading through the electronic networks is down somewhat, with the total just over $100K in consummated transactions.

Silver Commemoratives continue to suffer by way of declining sight-unseen Bids. There are 26 minus signs on display with the most severe damage, percentage wise, occurring for 1936 York County, Maine Halves in PCGS MS67. Wholesale dealer-to-dealer sight-unseen Bid has declined by 25% to $225 after this pop 547 coin sold for $250 retail through public auction this past week. Not too many better examples even exist, as CAC has only approved three in this grade and none higher, while PCGS has made 17 MS67+ examples and 25 graded MS68. It is not all negative here since higher Bids are in place for Isabella Quarters graded PCGS MS65-MS67. Gem examples made the largest upward move at +14%, jumping $200 to a new sight-unseen Bid of $1,600. Only ten PCGS MS65 examples have sold through auction this year with the highest priced piece realizing $3,525 and the worst performer $1,528; both Quarters sold in February. The upcoming Scotsman Midwest Summer Sale on July 18th will feature six of these one-of-a-kind regal Commems which mark a unique period in U.S. numismatic history.

Gold Commems are showing signs of life with a round of jump Bids targeting PCGS $50 Pan-Pac Slugs. Increases range from $2K-$5K with both Round and Octagonal examples participating. When these issues move higher, similar to $20 High-Relief Saint-Gaudens, many market participants perceive the activity as a signal that large money is moving into the market. These issues are expensive yet readily available for the most part, enabling a buyer's agent to make the conversion from cash to rare coins rather quickly. Nearly two dozen examples of PCGS/NGC slabs in these grades have sold through auction since January of last year.

Morgan Dollars remain super strong as they have for quite some time now, with Bid advances occurring regularly, virtually week-in and week-out. This week, Bidders are focused on the common dates in NGC MS67, and are now paying $600 for any example in this grade, regardless of what the coin looks like. Buyers are continuing to pay a premium for PCGS plastic, offering $650 sight-unseen for the same grade. In Las Vegas next week, Legend will showcase seven lustrous Morgan Silver Dollars exhibiting remarkable rainbow toning. In what would otherwise be considered rather common dates, three San Francisco issues, all PCGS and CAC certified, stand out. A duo of 1881-S Dollars, MS66 and MS67, and one 1882-S MS67+ are in a category of their own with staggering iridescence across the color spectrum. Morgan Dollars designated as Proof Like are receiving some much needed attention from buyers with nearly 90 advances recorded. Two dozen examples jumped at least 5% and some as high as 30%! Many of these reflective cartwheels still only Bid for a fraction over their non-PL brethren.

Peace Dollars, like Morgans, continue to remain strong with multiple buyers searching for both better and common issues. First year of issue, 1921, Peace Dollars are in the crosshairs this go 'round with much larger sight-unseen sums targeting PCGS examples in grades MS65-MS66-MS67. These High-Relief beauties have a pop of 1,250; 168; and 7 respectively. It may not be quick or easy, but Gems can be located at or below their new sight-unseen Bid level of $1,600. Over 50 PCGS specimens in MS65 have sold at public auction since this time last year, with 10 of them realizing less than $1,530.

A handful of lower Mint State grade Buffalo Nickels are lower as are a group of Mercury Dimes, all in response to discounted sight-unseen Bids combined with sub par results at retail auction. Many of the declining Mercs with Full Band designation should actually be priced even lower, but their non FB Bids are propping them up a bit. Walkers remain firm overall with only a few minor changes (positive and negative) in this report. PCGS will have another Members Only show in Las Vegas at the Venetia Hotel July 16-19. Legend will host an auction as part of the show, and we have listed several highlights from this sale herein.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflikes. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

The frame that holds a masterpiece does not influence its value.

Likewise, a quality coin will always bring a premium in any holder, with or without a CAC sticker.

Then why do CAC stickered coins bring a premium?

CAC just makes it easier to identify quality coins that are solid for the grade. CAC has evaluated over 550,000 coins with a market value over $2.4 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That means you can have confidence in the value of a coin.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over $340,000,000 worth of coins. Look for the CAC sticker - you'll find a quality coin in its holder.

CAC®

"Because Confidence is Priceless"

The CAC sticker helps identify a quality coin.

Generic CAC Morgans Higher Keying In On Key Date Peace Dollars

As dealers tally up their earnings from the largely successful Summer FUN show and a whopping $10 million Heritage auction, still more action is on the way soon. Some participants left Orlando and headed to Las Vegas for the PCGS Members Only Show featuring an auction from Legend. The majority of the coin caravan headed to the Midwest Summer Sale in St. Charles, MO where Scotsman is holding an auction at the Missouri Numismatic Society's 54th annual coin show July 17-19. Coming up next month, Stack's Bowers will be selling the Dr. James A. Ferrendelli Collection and the Gilded Age Collection of United States $20 Double Eagles at the much anticipated World's Fair of Money, running August 5-9. Heritage will also have an official ANA auction, August 5-9, making this the first time two official auctions are being held at an ANA show. Considering all this activity, it's no surprise that dealers want to remain flush with cash, and this shows in the lower than normal total for sight-unseen sales through the dealer-to-dealer electronic trading networks, which came in at just under $100K for the last week. Precious metal strength bodes well for the upcoming shows and sales as Gold has jumped back over $1,300 to $1,317 per ounce, reaching a peak for the week, and is continuing to climb. Some speculate that the stock market setting new records, combined with turmoil in the Middle East, the downing of an airliner over Ukraine and newly imposed sanctions on Russia have combined to cause safe haven purchasing of Gold. Silver is over $20 again, closing at $21.14. Platinum is up to $1,504 and Palladium landed higher on $885 an ounce, a level not seen since February, 2001, but still a long way off from its all-time high of $1,100 an ounce back in late 2000.

Vintage Silver Commemoratives remain in a rut, with advances absent again this week, which has become the norm for this market segment for quite some time now. Sixteen issues are lower with the most serious being Fort Vancouvers in PCGS MS64, declining by 9% or $30 to $310 Bid. Classic Gold Commems are in the same boat as Silver, with only minus signs to report. All the declines are found in the MS67 grade column with a trio of Gold Dollar design Types losing anywhere from $125-$200 as a result of poor results at the various retail auction venues. In MS67, $1 Grants (no Star) have a combined pop of 169, LA Purchase\McKinley Gold Dollars have 208 graded as MS67, and 155 PCGS/NGC 1916 McKinley Gold Dollars have been encapsulated as such.

Morgan Dollars remain active overall with mixed results relayed in this report. Bids for a handful of better dates are higher, primarily in the lower Mint State grades of MS61-62. Commoners are lower in MS66 with sight-unseen Bids now at $245 for PCGS and $235 for NGC plastic. CAC approved generic Morgan Dollars are up in MS64 and MS65 with offers of $77 and $190 looking for quantities. PCGS Peace Dollars are in the spotlight this go 'round with numerous increases in place, with Bid jumping as high as 43% for examples of the 1923-S in MS66, now at $15,000. See the chart herein, representing the five-figure cartwheels in MS66 and their corresponding sight-unseen Bids, PCGS populations and last auction appearance.

Liberty Seated Type material is taking a nice stroll in NGC MS66+ as the quest for fine Mint State examples continues for this series. Gold Type is seeing some mixed results. However, the positives slightly outweigh the negatives with Type One $1 Gold Liberties adding nearly 6% in MS66 bringing Bid up to $4,750, ending an 18 month drought of inactivity and returning Bid to its highest level since September 2009, almost five years! A small number of shortcomings for PCGS Buffaloes shows up for some 1930s examples declining as much as $35. Mercury Dimes avoid extensive downturns and encounter a single modest $2 slip. A trio of 1916-D pieces, the ultimate prize for a collector for this series, is currently featured in Scotsman's Midwest Summer Sale. Late date Walkers saw some discounting with a particularly hard 35% drop for PCGS 1945-S Halves after one such piece in Superb Gem sold at auction just shy of $5,000. This drop counteracts two years worth of gains for this pop 22 example with none finer.

Some coin dealers are up in arms over a new law in Minnesota which requires dealer registration with the state if a transaction of coins and/or bullion amounts to more than $5,000. This law even applies to transactions involving a buyer from Minnesota making a purchase from a dealer in another state. ICTA is aware of this situation and has more information on their website.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

World's Fair Of Money Comes To Illinois Opportunities Abound At Auctions

Dealers are preparing to chase down rarities and make big sales at the upcoming World's Fair of Money, to be held August 5-9 in Rosemont, Illinois. Heritage will host an auction for the duration of the show, including a Platinum Night, and Stack's Bowers will also offer quite a bit of material at their auction at the fair as well, including the very special Rarities Night sale August 6 (see highlights herein).

Silver Commemoratives are having another down week with Huguenots being singled out in the lower NGC Mint State grades. However, NGC Missouri 2x4 Halves climb $60 to a new high sight-unseen Bid of $590 for MS61 examples. This represents a 14% year-to-date jump for these pieces in an otherwise beleaguered segment. Choice and better Sesquis and Lewis and Clarks enjoy increases ranging from $25-$250. A delightful PCGS MS62 Round Pan-Pac will be offered by Heritage at the upcoming ANA sale in August. This is the first time since January 2010 that this auction house has offered this pop 70 slug.

Liberty Seated material in both Mint State and Proof Type slip, but that doesn't seem to sway dealers from a potentially spectacular addition to a collection in the form of an 1867 Half graded PR67 by NGC with none finer, up for grabs at Stack's Rarities Night. A few late date Walkers take a step back, but the decreases are miniscule. The downturn for Halves continues for Proof Franklins in PCGS with declines as much as 12.5%. A PCGS/NGC pair of delectable 1942 Walkers graded PR68, the PCGS example being CAC certified, will be featured by Stack's on Aug. 8.

PCGS and NGC slabbed 1880-CC DMPL Morgan Dollars are being targeted in MS63 and MS64 as one dealer is paying a higher sight-unseen Bid of $600 and $1,000 respectively. Generic Morgan Dollars in NGC holders graded MS64 are seeing a little downfall this week as Bid falls to $59. Legend saw a beautiful rainbow toned pop 18 1904 Morgan graded MS66 by PCGS with none finer, take home a whopping $17K at their recent auction in Las Vegas. This and the rest of the prices realized can be seen in this week's Market column. Heritage hopes to see competitive Bidding for two beautifully blasted white Dollars; a pop 5 with none finer 1893 Philly Morgan graded MS66 by PCGS and a pop 10 with none finer 1927 Peace Dollar, also graded MS66 by PCGS at their upcoming ANA show in Chicago. A nicely Minted 1893-CC Morgan having a CAC pop of 38 with 3 finer graded MS64/CAC by PCGS will be making its way to the auction block at the ANA through Stack's Bowers.

Heritage hopes to find new homes for four gorgeous key Buffaloes at their upcoming Platinum Night Sale. First, a 1916 DDO graded AU55/CAC by PCGS with a CAC pop of 5 and 6 finer; second is a pop 19 with 1 finer, 1920-S graded MS65 by PCGS; third is a pop 4 with none finer, 1924-D graded MS66 by PCGS and last a beautiful rainbow toned 1926-S graded MS65/CAC by PCGS with a CAC pop of 2 and none finer. Stack's Bowers is also looking to auction off a 1916 DDO graded AU55 by NGC with a pop of 20 and 16 finer as well as a pop 172 with 14 finer 1926-S graded MS64 by PCGS at the August ANA.

A first year key date 1916-D Merc with a pop of 62 and 32 finer graded MS64 Full Band by NGC saw the winning Bidder fork over $19,550 at the Midwest Summer Sale through the Scotsman auction. Only one Mercury Dime will be represented at the Platinum Night sale. A nicely struck 1918-D graded MS65 Full Band by PCGS will look to make some noise. Stack's Bowers will also look to turn some heads when they bring out a brilliant pop 21 with 7 finer 1916-D Merc graded MS66 Full Band by PCGS to the stage at the ANA.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity including the highest national reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers are strictly the responsibility of the dealers and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows, and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy**: During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "**w**" – Lowest asking price during the week prior to publication (*w*eek old); "**m**" – Lowest asking price during the previous three weeks (*m*onth old); "**t**" – *T*rade during the most recent month; **lm** – Lowest asking price appearing *l*ast *m*onth "**lt**" *T*rade appearing *l*ast month; "**ot**" *T*rade older than 2 months; a blank, for all Market prices older than two months; "**a**" for auction transactions; "**oa**" – auction older than 1 month

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

UPDATE!

CAC Stickers Do Not Add Value!

Then why do CAC stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the "little green" sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

CAC has evaluated over ~~450,000~~ 550,000 coins with a market value over ~~$2.0~~ $2.4 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC stickered coins bring a premium - they are placed on only quality coins.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over ~~$300,000,000~~ $340,000,000 worth of coins.

So the CAC sticker does not add value - It is just an easy way to identify coins that are solid for the grade. And it gives you confidence in the value of a coin.

Commems: Silver Weak, Gold Stable PNG Trade Show Begins

Dealers are already in Rosemont, Illinois conducting brisk business privately amongst each other and preparing to participate in the PNG Trade Show August 2-4. This, of course, precedes the ANA World's Fair of Money, August 5-9, which is going to be jam packed with auction opportunities from both Heritage and Stack's Bowers. This should be quite a gala, with thousands of collectors, 1,100 dealers, showcases, educational programs and top-notch exhibits. Monaco Rare Coins will be offering replicas of the 1787 Brasher Doubloon, with EB Punch on Wing, at the ANA. A total of 500 of these novodels, made of .9999 fine Gold, will be struck on site on an antique screw press and will sell for $1,975 each. Monaco will donate $50,000 from the sales of these replicas to support ANA educational programs. As if that weren't enough for the month of August, in addition to local and regional shows, Bonhams will be hosting an auction at the end of the month in Los Angeles. The sale will consist of 1,344 lots of coins and banknotes, featuring plenty of Gold. Speaking of the yellow metal, it lost some luster, coming in shy of the $1,300 benchmark at $1,281 per ounce. Silver closed at $20.37. Platinum's Spot is $1,465, and Palladium sits at $874. Trading in the sight-unseen electronic marketplace is surprisingly high with over $200K in transactions. This is somewhat unusual considering the big ANA coming up when dealers want to remain liquid.

Classic Silver Commemoratives are still being treated like the red-headed stepchild within the sight-unseen certified marketplace. Over 63 minus signs are scattered throughout the Bid columns as dealers hit other dealers' Bids consummating a trade at a lower level. Discounted Asking prices and poor performances at retail auction venues are both contributing to the rash of declining issues. Gold Commemoratives are singing an entirely different song, with no decliners to report. In fact, nearly every issue has multiple sight-unseen buyers waiving their Bids in hopes of acquiring this material at current published levels. Even the 5- and 6-figure $50 Pan-Pac Slugs have blind buyers willing to take any graded example, regardless of the actual look of the coin.

Proof Type activity is split between the grading services. Barber Dimes and Halves in PCGS each give up 5-6% whereas Liberty Seated Dimes and Halves cause a stir in NGC with the latter gaining $100 in Gem after a two week slump at $2,400. Mint State Type material remains quiet except Twenty Cent Pieces and Seated Quarters, the former of the two loosening to a $1,400 sight-unseen Bid.

Stack's Bowers is offering a half dozen beautiful Buffaloes in addition to Heritage's immense 98 lot bonanza including four during its Platinum Night session. One such exquisite piece is a 1926-S graded PCGS MS65 and CAC, a rarity coming from an issue that had a mintage of only 970,000. 1938-D is proving to be a slippery year for PCGS Buffaloes and Mercs as examples slide in MS66. This same grade is proving to be a bit difficult for Walkers as well in both Uncirculated and Proof conditions. Later date Mint State and Proof Halves step back a bit.

Carson City minted Dollars remain extremely strong in the wholesale arena with widespread collector demand remaining unfulfilled. An 1882-CC Morgan graded MS64+ by NGC with the green CAC sticker attached representing that the coin is solid to better for the assigned grade, realized $917 at an online auction early in the week. This is nearly 300% over sight-unseen Bid for a non-+/CAC example. GSA encapsulated CC Dollars share in the current collector demand, with most dates needed. One Texas dealer is actively targeting the highest quality CC Morgan still in their original government holder with tamper evident wraparound NGC grade sticker affixed. The coins must be graded MS67 and completely white to receive this buyer's current sight-seen Bids: '80-CC $29K; '81-CC $12.5K; '82-CC $12.5K; '83-CC $9.5K; '84-CC $10K and '85-CC $21K. Stack's Bowers saw the winning Bidder for a beautifully struck 1880-O graded MS64 by NGC fork over $1,000 in a recent online auction, this being $230 less than what is being offered sight-unseen. On the other hand, David Lawrence saw a stunning CAC pop of 6 with 1 finer 1889 Proof Morgan graded PR66/CAC by PCGS take home a whopping $12,500 in a recent online auction.

Bids for better PCGS Peace Dollars have jumped once again with the MS65 and MS66 grades participating. An MS65 1923-S is now at $2,820 for this pop 126 Dollar that last realized $4,400 at auction; 1924-S is Bid $5,050 in Gem with a pop of 78 and recent APR of $6,463; 1927 has a MS65 pop of 298 and a slightly higher Bid of $1,810, which last sold at public auction for $2,350. PCGS slabbed 1927 Philly and 1927 Denver Mint Peace Dollars are being targeted at higher sight-unseen Bids of $13,200 and $17,100 in MS66 with both of these having a pop 10 and none finer.

Gold Type is mostly on the down side with the recent collapse of the $1,300 plateau Spot was maintaining. It is not all bad news as a couple of notable NGC Bids have moved higher. $5,000 is now being offered sight-unseen for any of the 119 Type 1 Gold Dollars slabbed as NGC MS66. This represents a 5% jump to Bid from out last report. Type 3 $20 Libs are $80 higher in NGC MS65, now Bid $2,900. This Type coin with a census of 8,482 has routinely sold for around $3K or less in recent retail venues.

The frame that holds a masterpiece does not influence its value.

Likewise, a quality coin will always bring a premium in any holder, with or without a CAC sticker.

Then why do CAC stickered coins bring a premium?

CAC just makes it easier to identify quality coins that are solid for the grade. CAC has evaluated over 550,000 coins with a market value over $2.4 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That means you can have confidence in the value of a coin.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over $340,000,000 worth of coins. Look for the CAC sticker - you'll find a quality coin in its holder.

"Because Confidence is Priceless"

The CAC sticker helps identify a quality coin.

ANA Underway
Gold Kennedys Steal The Show

With the ANA World's Fair of Money in full swing, the show is bustling with both buyers and sellers. Many participants are in search of fresh, original material that is problem-free, solid for the grade and has been off the market for some time, not to mention the Asking price has to be right. This strategy has been in place for quite some time at shows and executed by a majority of collectors. With this being the largest numismatic event of the year, this time around collectors also have two major official auctions to pick from—Stack's Bowers and Heritage, with both sales currently in progress. Even with all this action, dealers have still found time to consummate transactions on the sight-unseen electronic network systems, totaling over $275K in the last week. Gold has made an auspicious comeback, jumping back over the $1,300 benchmark to $1,311 per ounce, apparently as a result, at least in part, of safe-haven buying related to sanctions on Russia. Silver Spot landed on $19.95. Platinum is at a fairly strong $1,482 and Palladium came in at $856.

Highly anticipated Gold Kennedy Half Dollars Commemorating the 50th anniversary of the original release of the 1964 90% Silver Half Dollar has caused quite a stir. Buyers were reportedly recruited and paid up to $300 by dealers to wait in a line about a half mile long to purchase the Commems with police present for crowd control. It was reported that some dealers even hired the local homeless to wait in line with a pre-paid credit card to purchase the JFK Goldies in exchange for $20 and a promise to help at the neighborhood soup kitchen. The first six Gold Kennedys sold at the show were purchased by Angelenos and were submitted to PCGS for slabbing, four grading PR70 DCam and two one point lower. The first four examples were originally purchased for $1,240 each and resold to dealers Kevin Lipton and David Hendrickson for $20,000 for the group of four coins with replacement coins to be mailed to the original owners at a later date. The US Mint has lowered the per person purchase limit from two to one at the show; however, since they're being made to order, they are presumably available to anyone who wants one.

A higher sight-unseen Bid of $4,450 is being offered for any 1904-S Morgan Dollars graded MS64 in PCGS holders as one just sold at a recent Stack's Bowers on-line auction for $4,585. PCGS and NGC Proof-Like Morgans are being targeted in MS63 and MS64 for 1878-S, 1887, and 1888 at sight-unseen Bids of $96 and $126 respectively. An 1881-O Morgan graded MS65DMPL by PCGS with a pop of 15 and none finer will look to turn some heads at the pre-Long Beach sale. $70 is what was left on the table for a nicely struck 1928 Peace Dollar graded MS63 by PCGS as it brought in a disappointing $705 in a recent Stack's Bowers on-line auction. The Goldbergs are hoping to see a Bidding war for a pop 15 with 1 finer (67 Star), 1922-D Peace Dollar graded MS67 by NGC at their pre-Long Beach sale.

A beautiful, naturally toned pop 3 with none finer 1926-D Buff graded MS67 by NGC will be up for grabs through the Goldberg pre-Long Beach auction. The last time one of these was on the market was January 2012 when Heritage auctioned one off in their Platinum Night sale in Orlando where it picked up $16,100. Also through the same auction is a pop 2 with none finer 1915-D Nickel graded MS67 by NGC hoping to bring serious Bidders to the table. A Registry rarity will look to take the stage at the upcoming Heritage auction in Long Beach: A CAC pop of 4 with none finer 1913 Type One Buff graded MS68/CAC by PCGS.

Commems, alas, get stung, but the pain isn't nearly as severe as less than half of the minus signs seen last issue present themselves this week. PCGS issues fared a bit better than NGC slabs. 1928 Oregon Trail Halves are off in the lower Mint State grades up through Gem. Civil War issue Grants with Star and Antietams backtracked a bit. The Goldbergs will be offering a trio of Gettysburg Commems graded MS66 by PCGS, two of which will sport the green bean. Uncirculated Silver Type must be doing something right as gains far outpace losses. Liberty Seated and Standing material sinks a bit in Choice thru Gem but pales in comparison to dealers' willingness to advance sight-unseen Bid $500 higher for MS61 graded Draped Bust Half Dimes. Proofs are having a bit of an off week with certain Silver denominations scaling back. There is almost complete silence for Mercury Dimes with the exception of semi-key 1916 in NGC MS67FB which trades lower after discount selling at auction. Walkers, being a popular segment, enjoy plentiful sight-unseen support at Bid. Better Date Washington Quarters prove strong with only one very modest loss among a plethora of demand at full Bid. Their predecessors however are being offloaded in the lower Uncirculated grades as dealers and collectors make space and search for higher quality Full Head varieties. Saints in PCGS are singing the blues in the lower Mint State grades. NGC examples, despite also having declines in lower grades, are on a brighter note with a sixth as many minuses. Overall, MS64 finds higher ground for common dates as dealers add higher quality material to their Double Eagle inventories.

On August 4, the PNG honored ICTA's Diane Piret in Rosemont, Illinois with a lifetime achievement award. This took place on the heels of her tireless work in getting the FDIC to remove coin dealers from the list of "high risk" businesses, also known as Operation Choke Point. Stack's Bowers will be holding an online Collector Appreciation Sale, August 22 thru 31. The auction will have no listing fees, free shipping and a chance to win an S.S. *Republic* Shipwreck Bottle with DVD. August 31-September 3 the Goldbergs are holding a pre-Long Beach sale which includes US coins and currency, while September 2nd features Ancient and World coins.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflikes. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

Auction Totals Reveal A Vital Market Classic Commems Continue Collapse

Dealers have returned from a very successful, and somewhat rowdy ANA World's Fair Of Money in Chicago. The release of the 50th Anniversary Issue Kennedy Gold Commems caused quite a stir unlike anything seen in quite some time. Both Stack's Bowers and Heritage combined to hammer over $63 million in auction prices realized, all making for an unforgettable convention. So far this year, auctions from the major companies have brought in just over an incredible $380 million, and, as always, still counting. Gold has been on the rebound for the last week and a half, staying above the benchmark $1,300 per ounce and coming in today at $1,314. Silver is having a little trouble getting back above $20, but is still showing some strength at a Spot of $19.87. Platinum closed at $1,469 and Palladium rounded things off at $886, a recent high. Trading over the sight-unseen dealer-to-dealer electronic networks was pretty much on target during the last week considering what we've seen lately at $236,774.

Heritage saw a beautiful blast white 1879-CC Morgan graded MS65 by PCGS with a pop of 102 and 2 finer pick up $24,675 at their recent auction in Chicago. Also through the same auction was a must have rarity with a pop 5 and none finer 1893 Philly Dollar changing hands for a sum of $44,065. A sight-unseen Bid of $36,000 is being offered for any 1879-CC Capped Die Morgan Dollar graded MS65+ by PCGS as this can be seen on Supplemental Page G. 1927-D Peace Dollars graded MS66 by PCGS have brought out at least one active buyer as sight-unseen Bid is now up 40% to $24,000 for this pop 10 coin. Seeing its way out the door was a pop 9 with none finer 1927 cartwheel graded MS66 by PCGS as the winning Bidder forked over $35,250 at the ANA auction. Three MS68 Morgan Dollars will be up for grabs through auction in Long Beach, with one of them being a pop 4 with none finer 1881-CC in a PCGS slab.

A gorgeous pop 4 with none finer 1924-D Buff graded MS66 by PCGS brought home a whopping $23,500 at the recent ANA through the Heritage auction. Also doing some damage on the auction block was a nicely toned pop 13 with 1 finer having the CAC approval sticker, 1927-D Nickel graded PCGS MS65+/CAC racking up $12,925. Sight-unseen Bids for 1937-D 3-Legged Buffaloes have fallen a little this week for MS65 CAC examples now at $29,000. Showing up soon in Long Beach will be a pop 5 with none finer 1927-D Buffalo graded MS66 by PCGS.

Silver Commems continue to fall. Especially hard hit were Cincinnati and Columbia Halves for nearly all grades. There is one ray of sunshine in the Very Choice Bid column for 1920 Pilgrim Halves with the green bean as they advance 16% from our last issue. Surprisingly, MS64 PCGS Gold Commems saw many missed opportunities as several issues sold for well below sight-unseen Bid. In one case a 1903 LA Purchase/Jefferson Dollar sold for only $734 while at least one dealer is offering a sight-unseen Bid of $800 for any example.

Uncirculated material has seen better days for Copper, Nickel, Silver, and Gold which are all sitting on the back burner with Liberty Seated Material having much money left on the table with some issues selling starkly below confirmed Bids. While activity may be a bit scant for regular slabbed Mercury Dimes, demand has never been crazier for their Full-Banded CAC certified counterparts. All three CAC grades reported on Page I see full Bid across almost all dates and exquisite 1925-D pieces, with only 14 green beans affixed in all grades, make a nice $500 leap in MS66FB. Walking Liberty Halves see some money left on the table in MS67 as one PCGS example sold for only $435 despite strong support from dealers willing to pay $65 more. Among the decliners, 1936 stood out in particular as the finest Mint State examples from Denver take as much as a 20% hit while Proofs in PCGS MS65+ fly $100 higher. Early and late date CAC Walkers scream with strong support at Bid with numerous dates in Gem and better nabbing increases as much as $1,000. This combined with strong demand for early key Halves in PCGS+ and NGC+ serve as a testament on how collectors are wanting to acquire the highest quality material possible.

Coming up on the auction front is a sale from Bonhams scheduled for August 31 in Los Angeles. Ira and Larry Goldberg will hold their Pre-Long Beach sale August 31 through September 3, also in Los Angeles. Heritage is the official Long Beach Expo auction house, and their sale is slated for September 4-6. The final Long Beach Expo of 2014, running September 4-6, will feature the all-time finest collection of $20 Saint-Gaudens on display for the first time anywhere. Referred to as the A&A Saint-Gaudens Collection Set, these Double Eagles will be presented through an anonymous owner from Illinois.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

CERTIFIED COIN DEALER newsletter

Vol. XXIX No. 34 | August 22, 2014 | Single copy price $5.00

Higher Sight-Unseen Bids Target Proof Gold
City Of Angels To Host Auctions

Long Beach is the focus of dealers and collectors now. With school back in session, vacations over and the ANA Word's Fair of Money in the rear view mirror, it's time to direct energy towards the So Cal show and auctions. Of course, this includes the Pre-Long Beach sale by the Goldbergs, set for August 31-September 3 (see a list of some of the many highlights herein.) Bonhams will hold an auction of their own in Los Angeles August 31. A few examples from this sale include a 1799 Draped Bust, Heraldic Eagle Dollar graded NGC AU53; an 1836 Gobrecht Dollar, Original Proof 63 graded by PCGS; and an 1811 Half Eagle, Capped Bust to Left graded PCGS MS63. This sale also includes five $4 Gold Stellas graded by PCGS. The Flowing Hair examples include an 1879 PR62; an 1879 PR45; and an 1880 Gilt Copper, Details. Those with Coiled hair include an 1879 and an 1880, both Gilt Copper, Details. A 1776 Pewter Continental Dollar, graded MS61 by NGC, will also hit the auction block at this sale. Heritage will take the official auction responsibilities at the Long Beach Show, running September 4-6. Among the multiple displays at the show will be something a little different: the oldest known American BeatleMania memorabilia in existence, which is the Beatles' first ever US recording contract.

The yellow metal has softened in the last week, falling below the $1,300 per ounce mark to close today at $1,274, which is a level not seen since mid June. For about two months, Gold has been fairly strong, but today's weakness may cause a lack in confidence as seen by the many minus signs within Gold Type. Silver has dropped as well, down to $19.39 an ounce, making the $20 mark a bit more elusive. Platinum Spot has dropped to $1,419, and Palladium came in at $880, after reaching a recent high last week. Sight-unseen dealer-to-dealer trading over the electronic networks totaled $165K for the week.

A handful of slightly better New Orleans, San Francisco and Carson City minted Morgans are higher in lower Mint State grades. 1883-S cartwheels graded MS61 by NGC are among the percentage leaders, with Bid jumping $120 or 16%. Once again, several Morgan Dollars sold at public auction for less than dealers are paying sight-unseen. The latest auction results, trades and asking prices can be seen in this week's Market columns which are published the fourth week of the month. Generic Morgan Dollars in NGC slabs graded MS66 have dropped a little this week to a sight-unseen Bid of $227. With a Mintage of 930 this pop 15 with 17 finer 1885 Morgan graded PR65 by PCGS will look to find a new home at the Goldberg Pre-Long Beach sale. Also making its way to the auction block at the same sale is a gorgeous pop 6 with none finer 1891-S graded MS65DPL by NGC. Every Peace Dollar in PCGS MS61 through MS65 is being actively sought after. Heritage will be offering eight 1921 Peace Dollars at their upcoming auction in Long Beach with the highest graded one being an MS66 in a PCGS holder with a pop 171 with 7 finer.

An oversupply of Classic Silver Commemoratives continues to underpin this market segment, resulting in steady declines for quite some time now. This week is no different with over 32 minus signs in place. Oregon Trail Commems are off a bit in MS64. However, the pain is felt more for NGC Antietam and Lynchburg issues in all Gem and lower Mint State grades. PCGS Spanish Trails feel the heat as well for grades Choice and lower. Gold Commems retain their sturdiness with the exception of Pan-Pac Dollars which have pulled back a bit to $4,100. Uncirculated Halves and Dollars of nearly every series enjoy solid sight-unseen support. After selling short in an online auction for $78 one consigner left money behind in Barber Dimes in PCGS MS62 as others are Bidding $130 sight-unseen. Proof Barbers are telling a different tale. Dimes, Quarters, and Halves in Choice through Gem are up as high as 16% over our last report. A pair of Cameo Proof Barber Dimes in PR64, a pop 30 1894 from NGC and a pop 14 1906 from PCGS, are featured in Goldberg's upcoming Pre-Long Beach auction. Mercury Dimes have recorded increases for common dates as dealers are now willing to pay $127 for any MS67 example with Fully Split Bands. Proof Mercs are actually making some headway with 1941 dated issues bouncing back and tacking on as much as15% for those Superb Gem pieces in NGC slabs to $230, erasing all losses so far this year.

Heritage will feature a beautifully colored CAC pop of 3 with none finer 1917-S Buff graded PCGS MS66+/CAC at their upcoming Long Beach sale. Also graded PCGS MS66+/CAC is a gorgeous 1934-D hoping to do some damage at auction in September.

Proof Gold Type has not seen this much positive attention by way of higher sight-unseen Bids in years. Over 20 advancing Bid are in place, hoping to entice sellers. The biggest upward move is for Proof-65 $20 Saints-Gaudens slabbed by NGC, which have nearly doubled, now Bid $57,500. Next on the leader list is $10 Indians in NGC PR67 plastic, now Bid $65,000. To date NGC has graded 45 $10 Indians at the PR67 level and 10 graded PR68. Only 3 NGC PR67 examples have sold at public auction over the past 3 years and realized from $69,000 to $76,375.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy**: During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "**w**" – Lowest asking price during the week prior to publication (week old); "**m**" – Lowest asking price during the previous three weeks (month old); "**t**" – Trade during the most recent month; lm – Lowest asking price appearing last month "**lt**" Trade appearing last month, "**ot**" Trade older than 2 months; a blank, for all Market prices older than two months; "**a**" for auction transactions; "**oa**" – auction older than 1 month

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

UPDATE!

CAC Stickers Do Not Add Value!

Then why do CAC stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the "little green" sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

CAC has evaluated over ~~450,000~~ 550,000 coins with a market value over ~~$2.0~~ $2.4 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC stickered coins bring a premium - they are placed on only quality coins.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over ~~$300,000,000~~ $340,000,000 worth of coins.

So the CAC sticker does not add value - It is just an easy way to identify coins that are solid for the grade. And it gives you confidence in the value of a coin.
